

Winter Semester 2021/2022

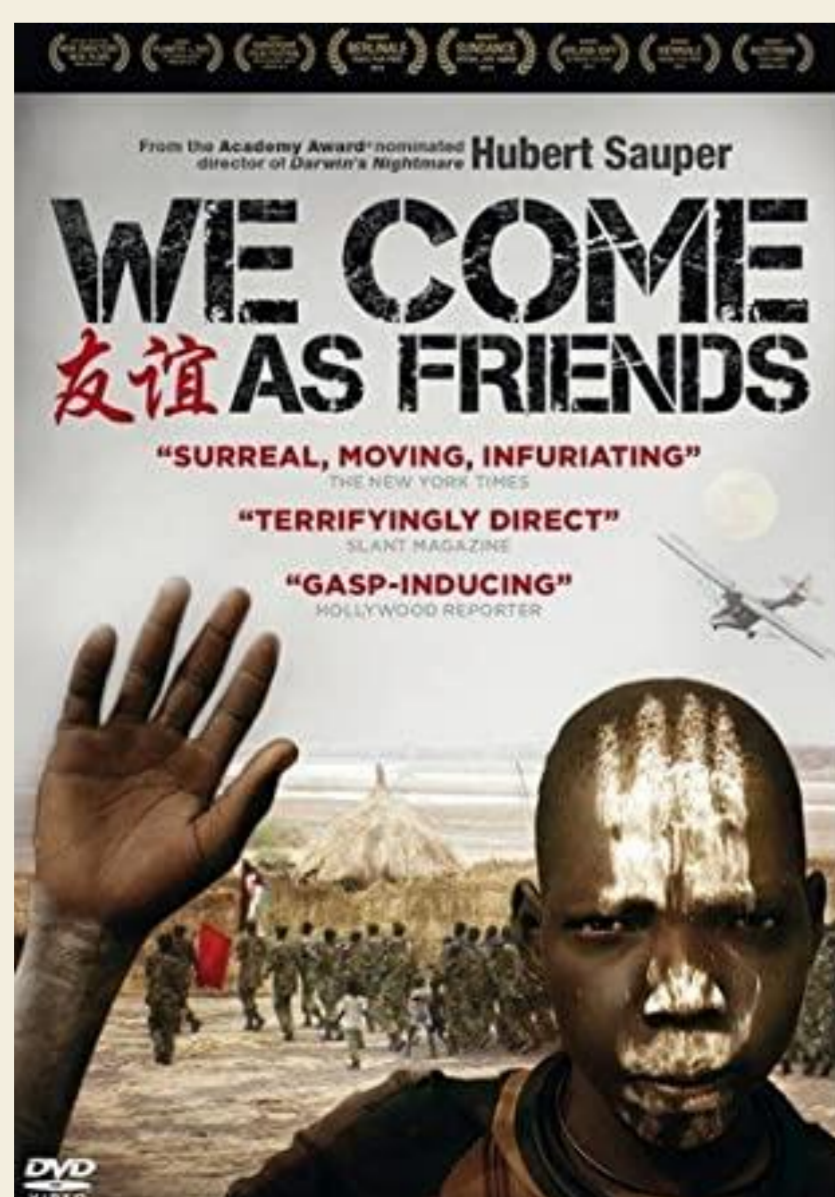

Standards of Decision Making Across Cultures

# Film Club

Thursdays  
6-8pm  
SDAC Building  
Room TBD

The Film Club offers three documentary movies for this semester, complimentary to Professor Horstmann's courses on World Anthropology and Humanitarian Organizations. "We Come as Friends" by Hubert Sauper offers a brilliant perspective on post-humanitarianism, the geopolitical interests involved, the exploitation of natural resources, the continuity of colonization, and the global assemblages that Duffield calls "Network Power". Free Burma Rangers is a very promotional film on the work of the Free Burma Rangers in emergency health care. Poverty Inc. is a very critical film on the commercialization of humanitarian aid and intervention, but also reflects on alternatives. The films thus provide a welcome illustration of many of the theoretical and philosophical issues we discuss in class.
